DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Berry (5501286).

Berry discloses a service or workover rig 20 having a mast 22. A torque carrier 42 is suspended from the mast. The lower end of the torque guide is connected to a brace 26 through fastener means 50,52. The brace is connected at its other end to the substructure 24. As to claims 2 and 7, figure 5 shows the brace being offset from the torque guide 42. As to claims 3 and 8, a portion of the brace assembly is considered parallel to the guide track (see figure 6). As to claims 4 and 9, brace 26 is considered an offset extension of the guide 42. As to claims 5 and 10, the brace 26 is connected to the substructure 24.

Claims 1,4-6,9 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Sizer et al (4251176).

Sizer discloses a service or workover rig having a mast. Figs 12 and 13 show the torque guide 181,184 connected at the top and bottom ends. The bottom end is connected to a brace 185 that is bolted to the substructure. As to claims 4 and 9, the

brace 185 is considered an offset extension of the guide. As to claims 5 and 10, brace 185 is connected to the substructure.
